

Bare Demo of IEEEtran.cls for Conferences

Anonymous authors

I. INTRODUCTION

This demo file is intended to serve as a “starter file” for IEEE conference papers produced under L^AT_EX using IEEEtran.cls version 1.7 and later. I wish you the best of success.

NOTE: Slight modifications were made from the original version by Michael Shell to fit the specifics of the DeepMath conference. Specifically the author block is replaced by “anonymous authors” and unnecessary sections have been removed.
